TROPICAL CYCLONE BULLETIN NR. 8
Typhoon DOMENG (JANGMI)

Issued at 11:00 PM, 30 May 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

DOMENG MAINTAINS ITS STRENGTH AS IT CONTINUES TO MOVE NORTHWESTWARD OVER THE PHILIPPINE SEA

Location of Center (10:00 PM)

The center of the eye of Typhoon DOMENG was estimated based on all available data at **760 km East of Calayan, Cagayan (19.3°N, 128.7°E).**

Intensity

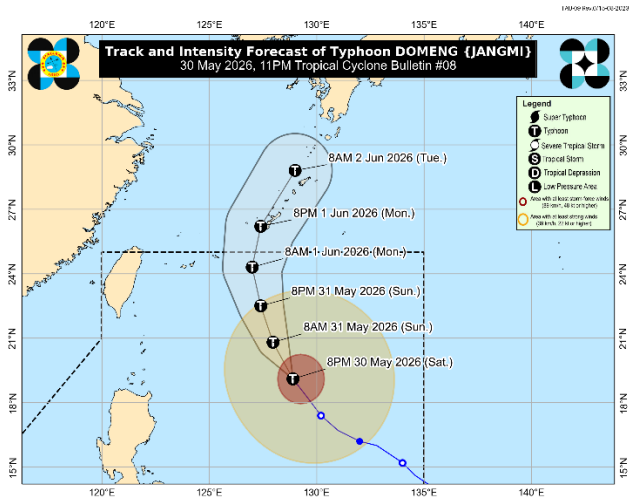
Maximum sustained winds of **120 km/h** near the center, gustiness of up to **150 km/h**, and central pressure of **975 hPa**

Present Movement

Northwestward at 20 km/h

Extent of Tropical Cyclone Winds

Strong to typhoon-force winds extend outwards up to **500 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 4 issued at 11:00 PM today for the heavy rainfall outlook due to the enhanced Southwest Monsoon.

Severe Winds

Based on the latest forecast track, the **hoisting of tropical cyclone wind signal over Extreme Northern Luzon is less likely, but not ruled out.**

The enhancement of the Southwest Monsoon and the periphery of DOMENG will bring **strong to gale-force gusts** over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Most of Visayas, Batanes, Cagayan, Pangasinan, Zambales, Bataan, Tarlac, Nueva Ecija, Bulacan, CALABARZON, MIMAROPA, Bicol Region, Zamboanga del Norte, Misamis Oriental, Camiguin, Agusan del Norte, Surigao del Norte, Dinagat Islands, Sarangani, Davao Occidental, and Davao Oriental.
- **Tomorrow (31 May):** Most of Visayas, Batanes, Cagayan, CALABARZON, MIMAROPA, Bicol Region, Zamboanga del Norte, Misamis Occidental, Misamis Oriental, Camiguin, Agusan del Norte, Dinagat Islands, Surigao del Norte, Sarangani, Davao Occidental, and Davao Oriental.
- **Monday (01 June):** Batanes, Babuyan Islands, CALABARZON, MIMAROPA, Bicol Region, Panay Island, Negros Occidental, and Northern Samar.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 3.5 m:** The seaboard of Batanes; the eastern seaboards of Babuyan Islands and mainland Cagayan.
- **Up to 3.0 m:** The seaboard of Isabela; the northern seaboard of Babuyan Islands; the eastern seaboard of northern Aurora.
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced of operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The remaining seaboards of Babuyan Islands, mainland Cagayan, and Aurora; the northern and eastern seaboards of Polillo Islands, Catanduanes, and Northern Samar; the eastern seaboards of northern Quezon and Eastern Samar; the northern seaboards of Camarines Norte and Camarines Sur.
- **Up to 2.0 m:** The seaboards of Southern Leyte, Surigao del Norte, and Dinagat Islands; the eastern seaboard of Davao Occidental; the southern seaboard of Bohol; the northern seaboards of Ilocos Norte and Camiguin; the eastern and southern seaboards of Davao Oriental.
- **Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.**

Other coastal waters have forecast wave heights of less than 2.0 m.

TROPICAL CYCLONE BULLETIN NR. 8
Typhoon DOMENG (JANGMI)
Issued at 11:00 PM, 30 May 2026
Valid for broadcast until the next bulletin at 5:00 AM tomorrow.

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- Typhoon DOMENG is forecast to move north northwestward until Monday (01 June) before recurving towards southern Japan for the remaining forecast period. This tropical cyclone is less likely to make landfall over the country. DOMENG will likely exit the Philippine Area of Responsibility (PAR) by Monday.
- DOMENG will continue to intensify until it reaches its peak intensity on Monday while remaining over the Philippine Sea. Afterwards, it will steadily weaken but will remain as a typhoon throughout the forecast period.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 5:00 AM tomorrow.
